Título	1º Autor	Sessão (colocar um X)	
		15_Abril (tarde)	16_Abril (mañana)
The use of histological techniques in the diagnosis of drowning	Topa, N	x	
Coagulation-Flocculation-Decantation with NaCl-Plant Extracts and Microfiltration for Winery Wastewater Treatment	Jorge N.		x
Bioinformatic approach to define specific probes for Colletotrichum acutatum	Calvão G.		x
BIOMEDICAL BIG DATA: ETHICAL AND LEGAL ASPECTS	Vidal-Núñez J.J.	x	
Seed priming with boron in common wheat	Fernandes A.		x
Novel Biosensor Applied to Non-Small Cell Lung Cancer Detection	Lino C.	x	
Nanoparticle-based biosensor: a potential alternative for COVID-19 detection	Lino A.	x	
How herbicides affect nucleolar activity?	Rei S.		x
Dermatophytes occurrence in herding dogs from the Northeast region in Portugal	Carvalho IV.		x
Fungal Biodiversity in the Beds, Collars and Blankets of Shepherd Dogs from Terra Quente Transmontana	Carvalho IV.		x
Talaromyces marneffeii isolation on a horse blanket in Miranda Do Douro region – the importance of a One Health approach	Carvalho IV.		x
Cytogenomic response of almond tree to two biostimulant and two boron-based fertiliser treatments	Carvalho A.		x
Expression of genes related to cell wall modifications under foliar application of potassium and magnesium in sweet cherry – a semi-quantitative analysis	Gouveia S.		x
Analysis of the XPDAsp312Asn polymorphism in a human population sample	Veiga P.	x	
Detection of the RAD18Arg302Gln polymorphism in a human population sample	Morais A.	x	
Biological roles of tensins	Monteiro A.	x	
Unveiling new roles for FUR (Ferric Uptake Regulator) proteins in Anabaena sp. PCC7120: exploring FurA interaction with photosynthetic electron carrier proteins	Guío J.		x
Assembly and Annotation of the Lentil Transcriptome	Balboa, Álvaro J.		x
Transposable elements dynamics in the human genome	Cunha C.	x	
Gene-stealing plants: parasitic plants and horizontal gene transfer (HGT)	Frey C.		x
Cross-species models of human bladder cancer: molecular targets	Sousa M.	x	
Can the pre-harvest application of different nutrients affect the expression of genes related to cell wall modifications in sweet cherry?	Santos M.		x
Pectin role in Pseudomonas syringae defence processes	De la Rubia A.G.		x
Ferrets as an animal model for the understanding of cystic fibrosis	Álvarez D.	x	
Evaluation of genistein-induced bone and cartilage malformations in zebrafish larvae	Braga M.	x	
The effect of ozone on the fight against multi-resistant bacteria	Videira B.		x
Detection of fecal contamination in ornamental animal feed	Soares R.		x
Diversity of Aeromonas species isolated from surface waters: Occurrence of antibiotic resistance to $\beta$ -lactamase	Piteira M.		x
Exploring a link between tumor-associated macrophages and Cox-2 in feline injection site sarcomas	Gomes H.	x	
Covid-19: What led us to lockdown	Guerra, M.	x	
Physiological behavioural and genotoxic effects of psychoactive drugs in aquatic organisms using daphnia as model	Pérez-Pereira A.	x	
Serum Protein Cellulose acetate Electrophoresis in hedgehogs (Erinaceus europaeus) a preliminary study	Dinis T.	x	

Comparison of two tests to detect and quantify HCV RNA: COBAS® AmpliPrep/ COBAS® TaqMan® HCV v.2.0 test vs. Xpert® HCV VL test	Vieira R.		x
Antigen determination as alternative of HCV RNA quantification- Correlation study in the determination of HCV viremia in CHTMAD patients	Vieira R.		x
EFFECT OF BAP CONCENTRATION ON COFFEA ROBUSTA L. MICROPROPAGATION	Sequeira B.		x
Immunocytochemistry application on cell blocks	Ala I.	x	
Evaluation of the expression of biomarkers in individuals with cognitive impairment and its relationship with physical exercise	Nogueira C.G.	x	
Deepening into maize cell wall composition upon Fusarium verticillioides infection: a tool for breeding programs	Manga-Robles A.		x
Evaluation of biofilm formation by Staphylococcus pseudintermedius isolated of canine pyoderma	Maciel J.		x
Detection and identification of virulence genes of Staphylococcus aureus in a slaughterhouse	Aleixo A. C.		x
Enhancer RNAs in Cancer: Regulation, Mechanisms and Therapeutic Potential	Aleixo C.	x	
Comet Assay for genotoxicity assessment of psychoactive substances using zebrafish embryos	Dias E.	x	
Protein profiling and allergenic potential of different almond varieties	Bezerra M.	x	
Cherry cracking: effects of the application of calcium and biostimulants on gene expression	Barros A. R.		x
Prevalence of methicillin-resistant Staphylococcus aureus (MRSA) isolated from healthy pigs	Grenha I.		x
Earthworms as a terrestrial model organism to study genotoxicity of chiral pharmaceuticals	Ribeiro O.	x	
Assessment of the genotype's effect on the micropropagation of the grapevine	Silva B.		x
Development of Biomolecular Tools for Expression and Trafficking Studies of The Human Copper Transporters	Oliveira R.A.	x	
Enhancing osteoblastic differentiation through the exposure of MG-63 osteoblastic cells to green-synthesized Mg(OH)2 nanoparticles using MgCl2 as a precursor	Costa-Pinho L.	x	
Antimicrobial activity of hop and grapevine wastes against Pseudomonas syringae pv. phaseolicola	Martín G		x
Biotechnological strategies to increase the production of artemisinin or its precursors in plants	Marín, P.		x
The effect of cannabidiol, a component of cannabis, on the GABAA receptor in the amygdala of a prenatal infection model of schizophrenia	Cuervo, C.	x	
GLOWING PLANTS	Villuendas Jiménez L.		x
COELIAC DISEASE: DIET IMPACT IN AMYLASE-TRYPSIN INHIBITORS MICROBIAL METABOLISM	Castro Lombó M.	x	
MINIGENE ASSAYS FOR THE FUNCTIONAL RE-CLASSIFICATION OF SPLICING-AFFECTING MISSENSE VARIANTS IN ACUTE MYELOID LEUKEMIA	Morote Faubel M	x	
Aliivibrio fischeri & Eupymna scolopes: A BRILLIANT SYMBIOSIS	De La Madrid Salmerón P.		x
Targeting MEK: attempting to overcome cancer resistance to RAS-MAPK therapies	Landeira Cancela S.	x	
Eosinophils: a new histopathological aggressiveness indicator for canine squamous cell carcinoma?	Vieira A.	x
